

Sinclair Broadcasting is forcing their stations to show an anti-Kerry documentary, "Stolen Honor", just days before the election.

My understanding of F.C.C. law is that the companies are obligated to serve the public interest since they are using our public airwaves for free.

This ploy of Sinclair Broadcasting is obviously to serve the large corporation's interest, taking advantage of their control of the media to influence the election to their advantage.

Why have we allowed these huge corporations free reign with our air waves?

Any political air time should be balanced between the political parties.

Thank you.
